THE SPOOKY ISLAND MYSTERY

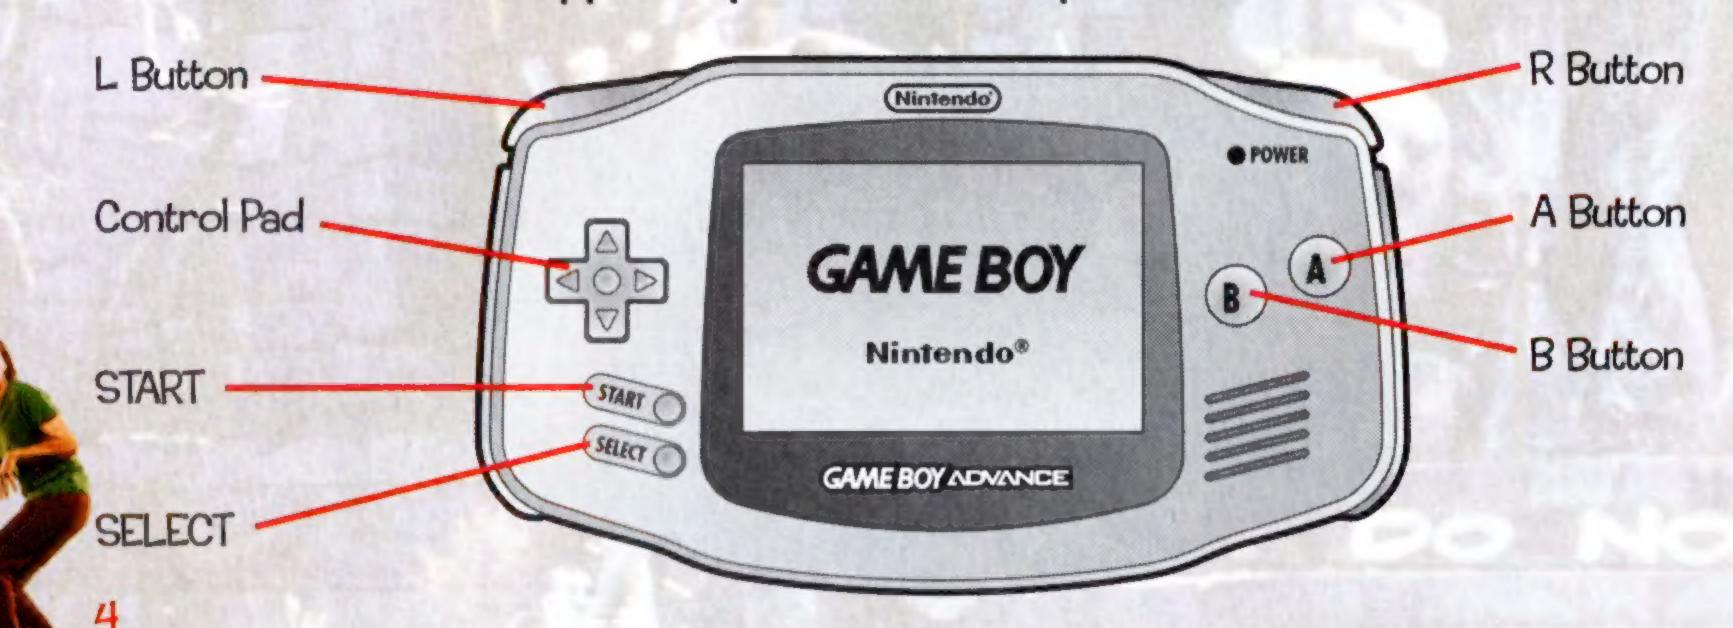

Emile Mondavarious, mysterious owner of Spooky Island, has invited the Mystery Inc. gang to solve what appears to be a simple mystery: find the ghost who has been scaring the Spooky Island hotel guests away. As the gang begins to uncover clues, they soon realize that this is more than just a simple ghost story. Instead, they must solve a whole series of mysteries – each one, drawing them deeper into a web of supernatural intrigue. The gang knows they'll have to fight to save themselves, and everyone else on Spooky Island from the sinister grasp of ... gulp ... an ancient monster!

Now it's up to you to help Scooby, Shaggy, Velma, Fred and Daphne solve the mysteries of Spooky Island. Are you brave enough to fend off the villains? Are you clever enough to solve the puzzles? Can you put the clues together to solve the big mystery of this monster-haunted island? Zoinks! ... Here we go again!

CHARACTERS AND SPECIAL SKILLS

When you begin the game, you can choose to play as either Scooby or Shaggy, but as you progress through the levels, Fred, Daphne and Velma also become available. At any time during a level, you can switch to another member of Mystery Inc. by pressing SELECT. You'll need to choose your player-character wisely, because each character has a unique skill, which will come in handy at different times throughout the game. Of course, there is a catch – some characters may not

be available when you need them. There are mysterious forces at work here, so Scooby, Shaggy, Velma, Fred or Daphne may actually have been captured and held prisoner! You'll have to rescue the missing characters before they can help you solve the mystery!

Fred Jones

Fred is a pretty good detective who can defend himself well against enemies with his punching moves. When there are heavy objects to be lifted, Fred has the muscle-power for the job.

Daphne Blake

Daphne's been in training. She's added Karate to her list of abilities and can attack enemies from all sides with her powerful kicks and roundhouse kicks. She can hunt for clues with the best of them, but when the enemies are closing in, Daphne's the one you'll need to fight them off!

Velma Dinkley

Velma is definitely the brains of the operation. Puzzle solving is her best skill. She's great to have around when you need someone to figure out how to open a locked chest or secret door. She can slow down time or stop it completely. When you come to a puzzle, Velma's your girl!

Norville "Shaggy" Rogers

When Shaggy is faced with danger, his first response is to run and hide. Of course, food is Shaggy's weakness. The pursuit of something to eat will always bring him out of hiding and may even cause him to take some pretty dangerous risks! Shaggy's special ability is the "quick run and stun" move that freezes enemies in their place.

Scooby-Doo

Scooby is Shaggy's faithful sidekick. Scooby can always be counted on to hide or make a quick getaway by using the "quick run and stun" move. Sometimes, he runs so fast, his enemies spin around and become dizzy. Scooby is definitely a hero - but he's a hero who is easily distracted by Scooby Snacks[™]!

· Press the B Button to select the character of your choice.

POWER-UPS AND PICK-UPS

Finding and using the collectible items scattered around the game will restore your character's health and stamina when they're getting low.

Food (small items): Eating small food items will restore one quarter of your character's total health.

Scooby Snacks: You can restore half of your character's total stamina by eating Scooby Snacks.

Food (large items): Eating large food items will restore half of your character's health.

The Golden Sandwich: It's hard to find, but if you are lucky enough to collect this rare power-up, you'll fully restore your character's health AND stamina.

Tokens: You can use tokens to buy items within the game such as food, Scooby Snacks, and other useful stuff. Getting important information from Dead Mike comes at a high cost, so use your tokens wisely!

CLUES

Throughout the game, you'll need to collect clues, which are indicated by a "?" to help solve the mystery and catch the villain who has the island in his evil clutches.

Gather clues from characters you meet, and from items you find scattered around. For example, someone might give you some valuable information, or you might find some glow-in-the-dark writing that gives you an important clue.

Pick up "?" icons to collect clues

PAUSING THE GAME

Press START at any time to pause the game. Select RESUME to return to the action, OPTIONS to change or adjust your game options, or QUIT to exit the game and return to the Main Menu.

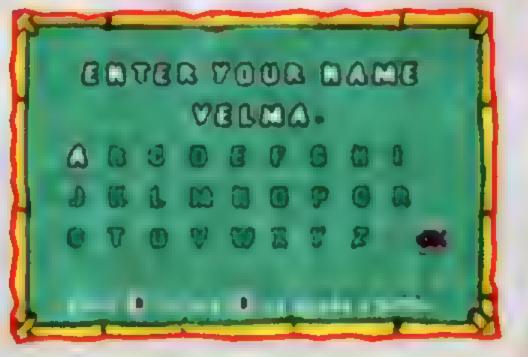

LOADING A GAME

When you start a new game, you'll be asked to enter in your name. While you are playing, the game will automatically save your progress at different points. When you come back, select the game you want to load, and you will be taken to the level you left off at.

SPOOKY RESIDENTS OF SPOOKY ISLAND

Mr. Emile Mondavarious

He may be your host here on Spooky Island, but there's something kinda spooky about Mr. Mondavarious too. Could he possibly have some dark and sinister secret of his own?

The Voodoo Maestro

The last true native of Spooky Island, the Voodoo Maestro knows all about the island's many secrets. Voted "Best Creep" five years in a row, the Voodoo Maestro is Spooky Island's most enthusiastic storyteller. He'll tell you all the local legends and when he runs out of stories to tell, he'll just make up some more!

N'goo Tauna

N'goo likes to tell stories about monsters. He knows it's the best way to give everyone a really good scare. If you can talk him into sharing his knowledge, he can be a valuable source of information.

Master Monstermind

After having been vanquished by the native people centuries ago, the Master Monstermind is back and he is angry. Bent on wreaking havoc on the island and everyone on it, he is determined to get his revenge, and eventually spread his evil all over the world!

SPOOKY RESIDENTS OF SPOOKY ISLAND

Brad the Goth

Brad is a Spook Journalist trying to get the whole spook-scoop for his magazine, Spook Times. He hasn't had the lead cover story in a while and he's willing to do just about anything to get it.

Dead Mike

Dead Mike sees a lot of strange things. He's happy to tell you what he knows, for a big enough tip.

Mary Jane

Mary Jane just loves Shaggy, and Shaggy sure loves Mary Jane.

Chief Spook

Chief Spook, a creepy ghost, takes his orders from the Voodoo Maestro. He can be a good ally - or a worthy foe.

Zarkos

Zarkos is the masked wrestler, but he's tired of only being seen as the "muscle" around town. Besides, why should he always have to play second fiddle to N'goo?

SPOOKY RESIDENTS OF SPOOKY ISLAND

Concierge

If you meet the hotel concierge, you'll notice she is very nervous and jittery. That's because she is constantly worried about losing her job. At least that's what she says.

Trolley Engineer

You just can't depend on him the way you could before the trolley mishap.

Old Man Smithers

The island's resident handyman, you can always find him where you least expect him to be.

Ghosts

These are the spirits of ancestral warriors and chieftains. Normally resting at peace, they have now been disturbed. Uh-oh! This may not be a good thing.

Monsters

Spooky Island is loaded with monsters. The more you search the island, the more monsters you're likely to find. In fact, even the enemies you've met before might end up having a few runins with the monsters themselves!

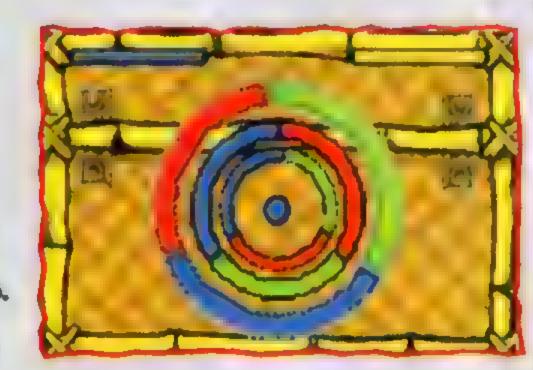

The Welcome Statue

When you arrive at the Spooky Hotel, you'll be spooked... or rather, greeted in the lobby by this fearsome looking statue.

It may not be as easy as you think to unlock that chest, or turn on those lights. You'll probably have to solve some sort of puzzle first. Use a character with some special skills to help you out. This could be the perfect time to call on Velmal

UNLOCK THE CHEST

You can't use a key to open this chest! Instead, you'll need to unscramble the combination lock, which looks like a series of rings. Each ring has 4 different colored sections. Rotate the rings with the colored key hole in the middle until all the colors match straight across. This might not seem too tough except that every 2 seconds, the rings movel If only you could stop time... hey, maybe you can!
